

Dear Parents/Carers,

It has come to our attention about the extremely worrying drama TV series released on Netflix in September called the Squid Game.

Some of the children are re-enacting what they have seen within school at playtimes and talking about it regularly.

Adults compete in deadly childrens games for the reward of cash prizes. Some of the children are trying to create those scenes on the playground, within their play, which obviously cannot be allowed.

The program is age rated 15.

There are also game apps available to download on Android and iOS, known as the Squid game or the K - Game challenge.

It has also made it's way onto the TIK-TOK platform which is worrying too!

Please do not allow your children to play or access this very concerning drama....the content is highly inappropriate!

Thank you.

The SQUID game is also on Roblox now as a very attractive game for them to play!!!

Please look out for it and don't allow them to access it.

Take a look at it yourselves....I'm sure you'll agree!!

Thanks, Mrs Twigg
